OF EMERGENCY SERVICES

SITUATION SUMMARY

CEC Flyovers SF Bay Area and San Joaquin Valley

- Aleecia Guterrez of the California Energy Commission informed the CSWC that the CEC is conducting air sample collections via aircraft over San Joaquin Valley and the San Francisco Bay area. The operations started on the 12th of this month and will end May 30th.
- Their aircraft are performing low level passes over refineries, oil production facilities, etc., in search of fugitive methane emissions. The Commission has received one call from a citizen in regards to the flights over facilities and the commission would like to alleviate or minimize any further public concern.
- The Warning Center has briefed Cal OES Duty Officers and notifications have been made to appropriate stakeholders.

Amgen Tour, May 10-17, 2015

- The eight-stage, 724-mile Amgen Tour began 05/10/15 in Sacramento and will finish in Pasadena on 05/17/15.
- The tour will roll into Southern California on 05/14/15 during a 98-mile stage from Santa Barbara to Santa Clarita before heading to Big Bear on 05/15/15 for an individual time trial.
- From Big Bear, a grueling, 80-mile trek from Ontario to a summit finish at Mt. Baldy will mark the race's penultimate stage. The final day will see the riders depart L.A. Live in downtown Los Angeles for a 60-mile stage which ends at the Rose Bowl in Pasadena.

Seasonal Readiness – Phase 1 of the State Contingency Plan for Excessive Heat Emergency

- With the approach of summer, though the state remains in the Phase I Alert condition of Seasonal Readiness, as outlined in the State Contingency Plan for Excessive Heat Emergency. State Agencies/Departments are being advised to review existing plans, procedures and resources, to facilitate preparedness for and response to possible excessive heat events, and closely monitor the situation and inform Cal OES of any heat related issues or concerns.
- Please take a moment to review the Contingency Plan For Excessive Heat Emergencies which can be located at:
<http://www.caloes.ca.gov/PlanningPreparednessSite/Documents/ExcessiveHeatContingencyPlan2014.pdf>
- The California State Warning Center continues to monitor the weather statewide for heat or fire weather of concern and state power grid issues, and Cal OES Regions will remain in contact with Operational Areas (Counties) to monitor heat events which may impact local communities, facilities or agencies.

SITUATION SUMMARY

7.8 Magnitude Earthquake, Kathmandu, Nepal

- In response to Nepal's request for urban search and rescue (US&R) assistance the United States State Department, U.S. Agency for International Development's, Office of Foreign Disaster Assistance (USAID/OFDA) deployed two INSARAG-Classified Medium US&R teams: Fairfax County, VA (VA-TF1, identified by USAID/OFDA as USA-1), consisting of 54 personnel to include six Canine Search Teams; and Los Angeles County, CA (CA-TF2, identified by USAID/OFDA as USA-2), consisting of 57 personnel to include six Canine Search Teams. USA-1 and USA-2 are operating in Nepal at this time.
- On 05/12/15 at 0005 hours, a verified 7.3 magnitude EQ occurred 52 miles east of Kathmandu, Nepal. Multiple aftershocks have occurred ranging from magnitudes 5.6 to 4.2.
- Per Fire Division, both US&R Task Forces assigned for duty in Nepal have been accounted for and are well.
- On 05/14/15, per the Cal OES Fire Duty Officer (FDO), USA-2 has transitioned out of active status and back into DEMOB status.
- On 05/15/15, per LA County Fire: USA-2 returns to Los Angeles from Nepal today at 4pm.

Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought

Weather of Concern

- There are no significant Watches or Warnings in effect at this time

Active Weather Warnings, Watches and Advisories by County: http://www.wrh.noaa.gov/sto/brief/www_bc_cal.php

WEATHER

WEATHER SYNOPSIS BY REGION:

Northern Region

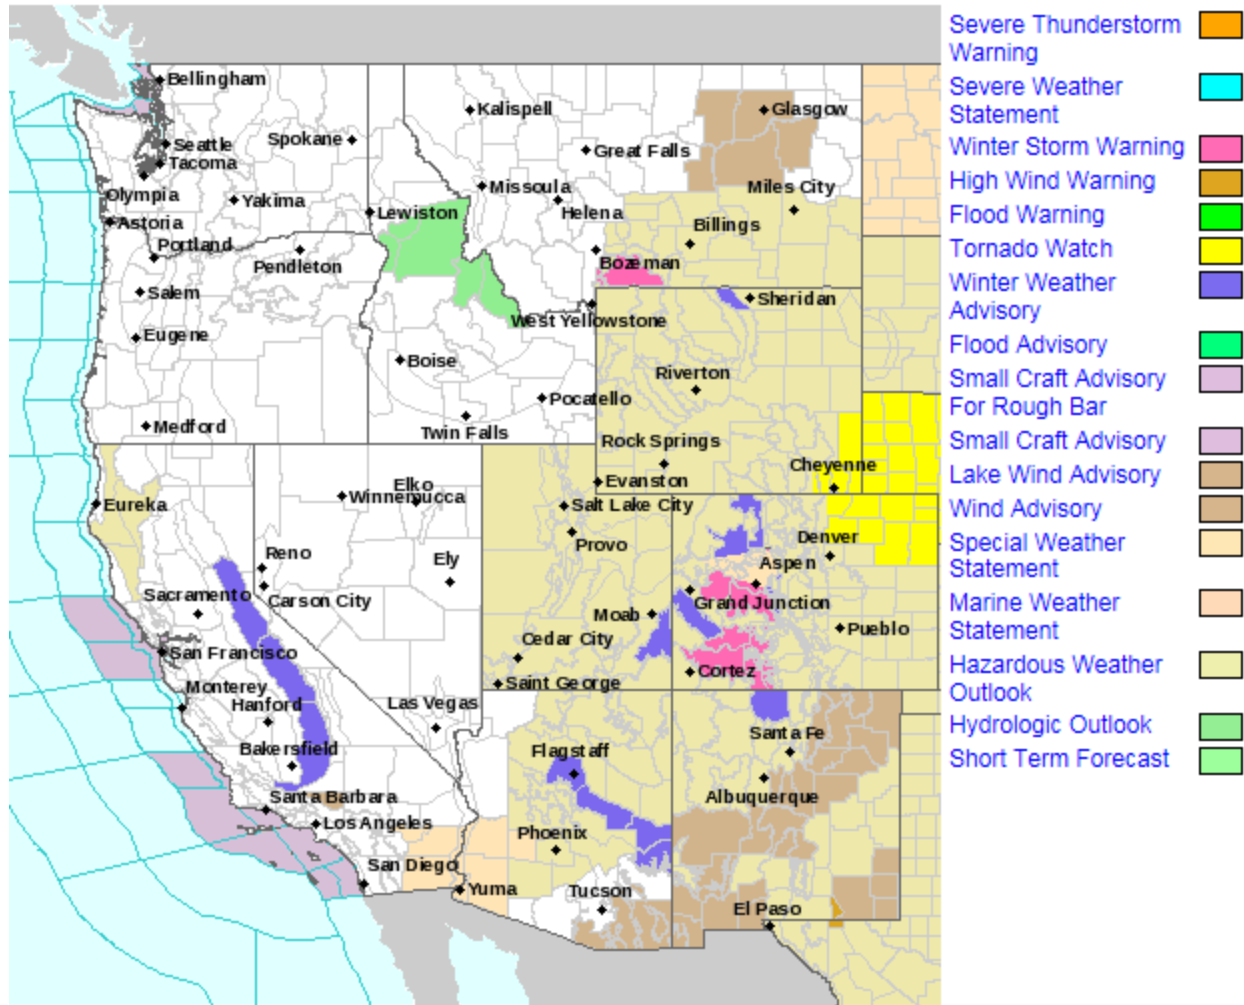

A large-scale low pressure trough will remain over the Northern Region and the West Coast for the next 7 days and beyond. Smaller-scale weather systems will occasionally pass over the Northern Region and produce wet unsettled weather. A fairly strong low pressure center passed to the south of the region last night and is now over the Great Basin and Southern California. Moist unstable air remains over the Northern Region and scattered showers and isolated thunderstorms are expected again today. This activity will gradually end from west to east late today and tonight. Snow levels are around 6000 ft. Even though we will be between systems on Saturday the air mass will still be moist and unstable enough for a few afternoon showers and thunderstorms to develop over the mountains. The next low within this pattern will produce showers and thunderstorms primarily over the higher terrain Sunday and Monday, with less of a chance of rain at lower elevations. Rainfall totals over the 7-day period will range from 0.10-0.25 inches in southern and lower elevation areas to 0.75-1.50 inches in the northern mountains.

Southern Region

The strong area of low pressure that was centered off the Central California Coast will move into Nevada today bringing scattered showers and isolated thunderstorms away from the Central Coast through this afternoon. Most locations will receive less than a quarter inch of additional rainfall through this afternoon. However, the Sierra and San Diego County will get another quarter to half inch of rainfall. The snow level will be around 6,000 feet. Temperatures will remain well below normal today, with mid-40s to mid-50s in the mountains and upper 50s and 60s in the valleys. Winds will be mainly southwest to northwest 5 to 15 mph today. A series of weak areas of low pressure will form off the California Coast and move inland bringing scattered showers and isolated afternoon thunderstorms mainly to the Sierra this weekend through the end of next week. Temperatures will warm a little, but remain well below normal through the end of next week.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

- The SOC, Inland, Coastal, and Southern REOCs and the Santa Barbara County EOC are activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued Executive Order B-26-14 on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought, specifically through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- The Governor issued Executive Order B-29-15 on 04/01/15 which announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies to make California more drought resilient.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate the Community Impacts Workgroup conference calls. Currently, the calls take place on alternating Wednesdays.
- Cal OES Regional (Inland, Coastal, Southern) conference calls continue to occur on a weekly basis.
